## Development Pathway \& Squads Criteria

## Why Criteria?

## Criteria have been created to help the swimmers to:

$>$ Assess their current level
> Help them to target and achieve their goals
> Show them the way to raise their swimming level by working in a homogeneous squad
In accordance with the strategic development plan of the club, the coaching team will review the criteria every year to raise the club's performance and achieve the short and long term goals.

## How do criteria work?

## Progression through the Development Pathway from Bronze to Platinum squad:

At the completion of the two major competition periods each year, (National Age Groups Champs and Short Course Champs), swimmers in all squads will be assessed by coaching staff to identify which squad is appropriate for the upcoming preparation cycle.

Progression through the development pathway is determined by the coaching staff's assessment of a swimmer's progress based on a combination of:
> Training commitment and attitude to training,
> Technique,
> Attendance,
> Competition results,
> Availability of a vacant position in the appropriate squad
After a move of squad takes place, a one month trial period will be in place to assess that the move is appropriate for the swimmer, with consultation some adjustment may be necessary.

Swimmers are expected to train with the squad for which they have qualified.

To achieve promotion swimmers in all squads must also be regularly attending competitions of an appropriate level throughout the year.

Should an individual not be able to meet the training or competitive requirements for the group for which they have qualified, movement to a more suitable group or a return to their previous squad may be necessary.

The Head Coach retains overall discretion and may allocate swimmers to a squad where criteria have not been met.

## How many training sessions should a swimmer attend?

Each training squad will have specific attendance requirements appropriate for the objectives of that group. In order to obtain the maximum benefit from the program you will need to attend all recommended training sessions. If during some weeks this proves to be difficult, the Parents/Guardians/Carers and/or swimmer should discuss this in advance with the Squad Coach.

A positive attitude towards training is important and it begins with the determination to start on time and to obtain full value of the training time available. Swimmers are expected to remain for the duration of each session.

The performance coaching groups do have attendance requirements that must be met. Failure to do so may result in the withdrawal of a place in the Swimming Coaching Program or movement to a training group with less rigid attendance requirements.

During senior school and exams swimmers are encouraged to maintain an average of one session per day. The squad coach should be notified of examination periods in advance.
